The Kern Trophy for outstanding achievement in figure skating is awarded each year to an eligible skater who is a home club member in good standing of a New Jersey USFS figure skating club. The award will be made after due consideration of the accomplishments of each qualified skater during the calendar year from January 1st to December 31st. The officers of each member club will be responsible for reporting to the Council each year prior to the date set by the Council, the accomplishments of their qualified eligible figure skaters. The decision of the officials of the New Jersey Council of Figure Skating Clubs after reviewing each club's report will be final. The accomplishments of the candidates will be based on the point system presented below. This system may be revised by action of the Council at any meeting attended by a quorum of the member clubs. The effective dates of revisions shall be set and published by the Council.

U.S. FIGURE SKATING QUALIFYING COMPETITIONS

In those years when there are two regional or sectional competitions in the same year (for example, if affected by an Olympics year), points can be awarded for only one competition at the same level.

Place points apply to all events for each individual skater, whether in singles, dance or pairs.

When an event has one or more preliminary round(s) before the final round, points may be taken for any one round according to the table below. Preliminary round includes Qualifying Round (QR) or Championship Initial Round (CIR).

At Nationals, preliminary rounds occur only at Junior Nationals and Championship or Master Adult Nationals.

National competition includes the U.S. Figure Skating Championships, the U.S. Junior Figure Skating Championships, U.S. Synchronized Team Skating Championships and U.S. Championship & Master Adult Figure Skating Championships.

International competition includes any international competition where the skater is on a team sent by U.S. Figure Skating to represent the United States. (Points can be awarded for only one international competition per year.)

When a skater receives a bye for a Regional or Sectional in order to compete in a U.S. Figure Skating selection competition for a place on an international competition team, points will be awarded for placement in the selection competition as if the skater competed at the Regional or Sectional for which the bye was granted.
